

PRINCIPAL'S COMMITMENT

to Social Inc.

I pledge to encourage, facilitate and promote the cause of social inclusion in my school community.

I understand the need for social inclusion and recognise the right for every member of the school to feel that they belong and contribute to our community.

I pledge to support all educators and staff in gaining the knowledge and skills they need to create a safe, inclusive environment.

I am aware that a student's social experience affects their self-esteem, school enjoyment and engagement as well as long term success and employability.

I will strive to promote an atmosphere that does not merely accept the students' different abilities, but celebrates them.

This school is a socially inclusive institution and supports the cause of 'Say hi' and the Social Inc. Group.
